Tennant Creek

Corrected Grain

Description

New Zealand leather with a contemporary feel. Tennant Creek is the best choice for a uniformed and high performance finish. The perfect choice for those who like dinner on the couch and want an easily wipe able leather. A modern twist on a classic product.

Leather Maintenance

Regularly vacuum your leather using a suitable brush attachment to remove dust, crumbs etc

Wipe the surface weekly with a soft damp cloth to pick up surface dust

We recommend the use of our **Molmic Leathers Care Kit** to protect and maintain your furniture

Avoid using aggressive, or nonspecific cleaners on the leather as they will damage the surface

Avoid exposing your furniture to direct sunlight (includes UV rays) for long periods

Type

Corrected Grain

Recommended Application

Residential use

Commercial use

Benefits of Corrected Grain Leather

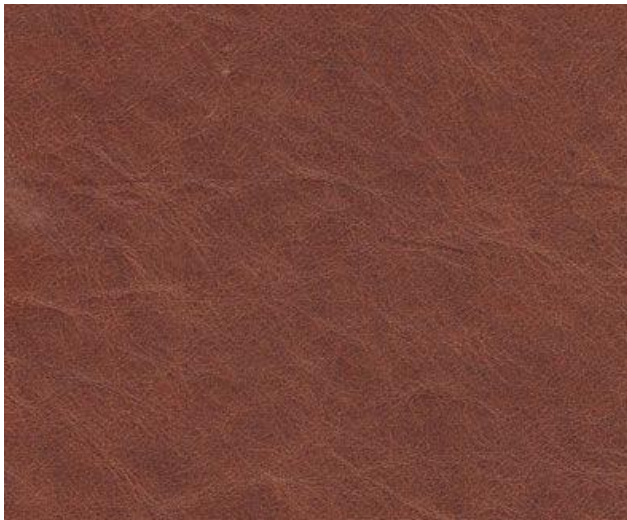

Consistent texture

Easy to clean

Settler

Pull up Aniline

Description

Originating from New Zealand, this leather was designed to have a more rugged, masculine appearance. With a wax finish, it has a subtle two toned effect of a pull up leather. Natural markings are part of the unique character and should become the focus of this product.

Over time, this leather will develop more character and patina. Embrace its beauty and make it part of your family.

Coronet

Semi Aniline

Description

Made in New Zealand, Coronet is a stylish leather with a very subtle sheen. Named after the pristine snowfields, this leather invokes the feeling of a luxury ski chalet. A more consistent grain, while still having the elegance that a premium leather deserves.

Refined elegance with a sophisticated feel, perfect for feature pieces or everyday classics.
